25.	The agenda item regarding option of Apprenticeship for M.Sc. Semester-IV students, was withdrawn.
26.	Resolved that the following proposal for appointment of adjunct faculty to various departments in Central University of Haryana from amongst the regular faculty in the University, be approved.  <i>(i) To encourage interdisciplinary approach in teaching and research at Central University of Haryana, it is proposed to have a provision of adjunct faculty from the regular faculty working in the University. While the administrative control and primary duties of the faculty will be in the parent department of their original recruitment. They may be permitted to associate as adjunct faculty with another department of the University for the purpose of teaching and research including guidance of Masters, M.Phil. and Ph.D. students in the department where they would be associated as adjunct faculty.</i>  <i>(ii) To be appointed as adjunct faculty in a Department, a faculty may apply to the Vice-Chancellor through his Head and Dean indicating the name of the secondary department he/she would like to associate with, along with a summary of the proposed teaching and research programme to be undertaken by him/her in the secondary department or Head of Department may request for an adjunct faculty if needed.</i>
27.	The Council considered and accepted in principle the proposal for introduction of a new course titled, "Continuous Evaluation" in the course work for the Ph.D. programmes in all the departments of studies of the University and resolved that a revised proposal may be submitted in next meeting after wider consultations.
28.	Resolved that the recommendation of the Board of Studies of the Department of Civil Engineering dated 11.06.2019, for the addition of "Project Cost Analysis" as a Discipline Centric Elective Course in 7 <sup>th</sup> Semester for the batches of 2016-20 and 2017-21, be referred back for approval of the School Board of the School of Engineering and Technology.
29.	Resolved that the recommendation of the Board of Studies of the Department of Civil Engineering dated 11.06.2019, for the revision of syllabi for "Building Construction (BTCE-409)" for the 4 <sup>th</sup>

- To produce knowledgeable and empowered skilled manpower in the field of core fundamental and applied science subjects.
- To provide real time research experience for preparation towards for higher research degree.
- To build and run state-of-art research facilities for learning in different areas.
- To impart knowledge and capabilities at par with IISERs, NISERs, and IITs
- To conduct national and International workshops and training programmes for faculty.

**Broad Structure:**

The curriculum of the BS-MS degrees will have total ten semesters, out of which eight semesters of courses- including laboratory, tutorials and lecture courses, and semester-long projects and summer internships, and the remaining two semesters of a Masters research Project.

The curricular structure will have first three semesters of courses in all branches of the sciences, viz, Mathematics, Physics, Chemistry, Biology including Environmental Sciences, Humanities, Languages, and several other courses of a trans-disciplinary or foundational nature. Starting with the third semester and into the fourth semester, students will have the option of choosing two disciplines as pre-major choices, moving on to one discipline as the major discipline. Students who wish to major in a particular discipline will be mandated to successfully complete a set of courses prescribed for that discipline. The last two semesters would not involve any course work, so that students focus entirely on their research project, which they would have an opportunity to complete with a faculty at Central University of Haryana or in a leading research institution in India, or abroad.

**Exit Option:**

After four semesters a student may be given an option of exiting the dual-degree programme with an opportunity to earn a B.S degree in a given discipline. Such students will have to complete an extensive set of courses specific to one of the above proposed disciplines during third year. The curriculum during third year for such candidates will be a blend of applied and basic courses in their specialised subject so that the graduates will have reasonable chance of finding employment in the industry, if they opt for the same.

**Challenges and Opportunities of Starting Dual Degree Programme at Central University of Haryana:**

For the success of a Dual- Degree programme with an entry of very bright and highly motivated students, one would need to meet the following challenges:

- Recruitment of internationally acclaimed, highly competent and motivated faculty in various disciplines who have a real passion for science research and teaching.
- Quality research infrastructure and laboratories in all disciplines. Thus, there will be a need to provide for massive resources for research and teaching laboratories.
- Assured hostel facility for all students. To maximise the benefit of such an intensive course, students will be required to reside in the campus.
- Library with online resources, books, and research journals.
- Quality sports and recreational facilities for enrichment of academic ecosystem.

33. Resolved that the proposal for adoption of the existing scheme and syllabi of course work for Ph.D. programme of the Department of Education for the newly introduced Ph.D. programme in the School of Education, w.e.f. the Academic Session-2019-20, be approved.
