## Two Days National Workshop on

Organised By

School of Education  
 Central University of Haryana

*Under the MHRD Scheme of*

*Pandit Madan Mohan Malaviya National Mission on Teachers and Teaching*

**(May 3-4, 2018)**

### About the Workshop :

For learning to be effective, teaching needs to be interesting. Methods of teaching must hold pupil's attention. The more the senses are involved, the better is learning. So, use of audio-visual methods and materials for teaching learning have been suggested by the educators.

Visual and Performing Arts is mandatory part of teacher education programs. Teachers need to be well versed in some or the other form of art. Theatre is also performing art which includes drama, role play, mono acting, mimicry etc. which can be used to teach many concepts and social issues to the students.

Participation in Theatre develops communication skills, expression of emotions, training in voice modulation, vocabulary enhancement, correct pronunciation, memory enhancement along with developing aesthetic sense and values in the learners.

Role play and drama are important tools in the hands of teachers to be used for explaining concepts related to any subject and many more added advantages. It is because of the reason that acting comes naturally to humans. Perhaps this is first learnt social skill after the instinct behaviours which are natural. This natural interest and talent should be tapped by the teachers to educate children in values, life skills such as emotional control, team work and much more.

Role play and dramatization help in overcoming stage-fear. Many popular actors confess that their interest in acting developed at the school level.

This workshop is being organised with the objective in mind that the pupil-teachers and teacher educators would learn the skills of theatre and realize its importance in the teaching learning process to make it joyful and affective.
